FIRE WARD'S REPORT

We are very proud to say that we have two very efficient Fire Companies in this Town, and the men in these companies are very prompt and ready at any time to answer your calls and come to your aid and rescue in times of distress and danger. They certainly do good work.

The equipment of these companies is very good and consists of Fire trucks, Booster Tanks, Pumps, Hose, Ladders, Nozzles, Portable Pumps for forest fires and many more articles for fire fighting.

We have been very fortunate the past year in not having too many fires. We hope it continues that way, but nevertheless folks be careful and prevent any cause for fire.

The companies have responded to calls as listed:

REPORT OF CEMETERY COMMISSION

At the annual town meeting on March 12, 1946 the following article was adopted.

Art. 27. To see what action the town will take in regard to creating a commission of three members to have full charge of the town cemeteries. Said commission to be appointed by the selectmen for the ensuing year, and in March 1947, three members to be elected by the town meeting, one for three years, one for two years, and one for one year, and thereafter one to be elected for three years at each annual town meeting.

After three years experience in operating under the authority conferred by the above article, members of the commission have come to the conclusion that more detailed instructions are desirable in order to make the work of the commission effective. It is our opinion that the words "to have full charge of the town cemeteries" should be more fully explained.

We therefore recommend that an article be adopted by the coming town meeting stating that the commission is to have authority to plan and direct all maintenance and improvement work connected with the cemeteries and that the superintendent shall work under the direction and with the approval of the commission.

The commission should have authority to fix and determine the rate of wages to be paid to all employees.

All payrolls and other bills incurred for the cemeteries should be approved by the commission, or a majority thereof, and when so approved, should be presented to the selectmen for payment. All funds appropriated for the cemeteries should remain in the town treasury as at present, and be paid out only on the order of the selectmen.

We also recommend that the office of superintendent and sexton of the cemeteries be removed from the list of regularly elected town officers, and that the cemetery commission be authorized to appoint said superintendent and sexton each year for a one year term of office.

Respectfully submitted,
LOUIS M. WEBB,
PHILIP J. YON,
Commissioners.

DIVISION OF MUNICIPAL ACCOUNTING
STATE TAX COMMISSION

Concord, New Hampshire

January 12, 1950

Board of Selectmen,
Fitzwilliam, New Hampshire.

Gentlemen:

Submitted herewith is the report of the annual audit and examination of the accounts of the Town of Fitzwilliam for the fiscal year ended December 31, 1949, which was made by this Division in accordance with the vote of the town.

SCOPE OF AUDIT

Included in the audit and examination were the accounts and records of the Board of Selectmen, Treasurer, Tax Collector, Town Clerk, Road Agent, Trustees of Trust Funds, Plante Memorial Park Commission, Treasurer of the Elliot Institute, Library Treasurer and Village District.

FINANCIAL STATEMENTS

Comparative Balance Sheets—Dec. 31, 1948—Dec. 31, 1949: (Exhibit A-1)

Comparative Balance Sheets as of December 31, 1948 and December 31, 1949, are presented in Exhibit A-1. As indicated therein the Surplus increased by $2,634.01 during the year.

Analysis of Change in Financial Condition: (Exhibit A-2)

The factors which caused the change in the financial condition of the town during 1949 were as follows:

Increase in Surplus		
Budget Surplus	$2,602 29	
Increase in Cash in Officials' Hands	10 50	
Decrease in Accounts Payable	44 48	
		$2,657 27

Decrease in Surplus

Transfer of Tax Liens to Tax Deeds	$23 26	
Net increase in Surplus		$2,634 01

Comparative Statements of Appropriations and Expenditures—Estimated and Actual Revenues: (Exhibits A-3 and A-4)

Comparative statements of appropriations and expenditures, estimated and actual revenues for the fiscal year ended December 31, 1949, are presented in Exhibits A-3 and A-4, respectively. As indicated by the budget summary (Exhibit A-4), a net unexpended balance of appropriations of $1,513.92, plus a net revenue surplus of $1,088.37, resulted in a net budget surplus of $2,602.29.

Summary of Receipts and Expenditures: (Exhibit B-1)

A summary of receipts and expenditures for the fiscal year ended December 31, 1949, made up in accordance with the uniform classification of accounts, is included in Exhibit B-1. Proof of the Treasurer's balance as of December 31, 1949, is indicated in Exhibit B-2.

AUDIT PROCEDURE

The accounts and records of all town officials charged with the custody, receipt and disbursement of public funds were examined and audited. Vouchers and cancelled checks were compared with supporting invoices and payrolls as well as entries in the books of record. Receipts were checked by source insofar as possible and totals of receipts and expenditures verified. Book balances were verified by comparison with reconciled bank balances made from statements obtained from depositary banks.

GENERAL COMMENTS

Town Clerk's Bank Account:

It was noted that the motor vehicle permit and dog license funds have been deposited by the Town Clerk in a special account at the bank, but it is recommended that this account be in the name of the official as "Town Clerk" rather than in the name of the official only as at present.

Conclusion:

The accounts and records of all town officials which we examined were found in good condition and the accounting procedure conformed to the uniform system prescribed by this Division.

The provisions of Section 31, Chapter 211, of the Laws of 1939, require that this report or a summary of its essential features shall be published in the next annual report.

We extend our thanks to the officials of the Town of Fitzwilliam for their assistance during the course of the audit.

Yours very truly,
HAROLD G. FOWLER,
Director,
Division of Municipal Accounting
State Tax Commision

REPORT OF THE LIBRARIAN
For Year of 1949

The Library suffered a real loss in mid September with the resignation of Mr. Andrew C. Neal as Librarian. He has left to take an intensive course in library work at the University of North Carolina.

The cataloging of the Library was started under his direction, and will be continued, and I hope completed by July. As there are about 30,000 cards to be typed before the work is completed, this date may prove optimistic.

The cost of books has not come down, and the prospects favor an increase rather than a decrease in price. A total of 211 books was purchased in 1949.

The young people's department has been considerably built up, and is now felt to be in a satisfactory condition.

Total circulation the past year amounted to 4,909 divided as follows, an increase of 239 over 1948.

Juveniles	1,271
Fiction	2,638
Non Fiction	1,000

The Library should be used much more than it has been, and special attention is called to the Reading Room where 18 magazines including Fortune, Holiday, Harpers, Atlantic, National Geographic and many others are available.

RODMAN SCHAFF,
Librarian.

REPORT OF SUPERINTENDENT OF SCHOOLS

January, 1950.

A superintendent in a new position for only five months cannot point out much in the way of past achievement, for such things take time and the Japanese traffic sign, 'Speed Slowly' fits New England. Politicians do not hestitate to make promises for the future but most educators prefer to let future events speak for themselves. Therefore, with the aid of the teachers of the community, this report will deal with those events of the present which concern our schools.

Today there are many thousands of children being instructed by under-trained, inexperienced teachers. The schools of Fitzwilliam are staffed with well-trained, experienced, progessive and capable teachers; to whom the community owes much; of whom it should gossip less; and for whom it should be grateful. As superintendent it is my purpose to sustain the professional morale of our staff at a high level by offering them encouragement in their work and support in their efforts to maintain classroom efficiency at a high level both in discipline and instruction. Parents have been most cooperative in this task.

Now let us see what our teachers report concerning their own schools and classrooms; Mr. Alfred McClure and Mrs. Elva Rawding of the Junior High School submit the following:

"What does the future hold in store for your child? It is hard to know in such an unsettled world, but it is certain that a strong foundation in the basic subjects and the ability to work with others will be necessary for any generation. Each pupil in the Junior High School is an individual; he needs individual attention and individual teaching. He also learns to cooperate with others. Through group procedure the children have progressed greatly.

They see and recognize the abilities of others and adjust themselves to working together. They learn to share and to take their turn. All are necessary to the building of future citizens, a happy family life and a Democratic community.

Our new disciplinary program has met with good results. The child realizes that the home and school is united in its purpose of teaching respect for the rules that are necessary to govern the group.

In the past two years, no parent has visited the Junior High School for the purpose of attending a class session. The child becomes the only reporter and is not always an accurate one. We urge you to spend a day in school.

ALFRED McCLURE,
ELVA RAWDING.

Down at the Columbian School is a class of lovely little tots. Their teacher's report follows. "In grade 1, our big concern is reading. As all children are not ready for formal reading when they enter school, they are carefully tested and grouped for reading instruction. Each child also works on his own level in arithmetic and penmanship. Manuscript writing is taught as it is easier to do and looks more like the print children read.

Our needs are first of all a consolidated school where the children will not have to use an out-door toilet; and where modern lighting, visual education, assembly programs and a school library would be available; as well as a lunchroom and playground."

ANNIE L. KNAPTON.

The second grade at the Columbian School is made up of a group of youngsters who deserve something better than a dark room with a dirty ceiling. Mrs. M. Basto says, "In November we had a parent's night program which was well attended. It was gratifying to note the keen interest shown by the parents in observing their children's work.

This year we have used a different, and I think a more satisfactory method of reporting pupil progress to the

parents. Comparison of one child with another is eliminated and each child is considered as an individual with abilities peculiar to himself.

Our greatest need is for a consolidated school. This is the only practical solution for our many problems of overcrowding, transportation difficulties and inadequate educational facilities."

MRS. MADELEINE BASTO.

Up at the Village School are two teachers who work hard not only in the classroom teaching their pupils but also with school patrons in an effort to improve playground facilities and classroom activities. The report from the Village School states, "Teachers and pupils have endeavored to promote a more cooperative spirit between the school and the community. We wish to thank our patrons for making the bazaar a success. A film strip projector has been purchased as a result of this sale.

An outstanding accomplishment for the year was the trip to Benson's Wild Animal Farm on which essays were written and prize books awarded. Our weekly trips to the town library have created a reading interest among the pupils and the spelling bee in Keene has stimulated proficiency in spelling.

We feel that more playground area and equipment as well as a school library would be of great help. Thanks to the fine spirit of cooperation between parents, teachers, the School Board and superintendent; we have enjoyed a successful year up to date.

MRS. EVELYN DAMON,
MISS AVIS TUCKER.

These are the reports of the really important people in your school system; the classroom teacher, who is the corner stone of our educational structure. Visit the class which your child attends. Get to know the problems at first hand.

First steps have already been taken to provide each pupil with a guidance folder. This will contain a complete record of the marks, intelligence tests, aptitude tests,

school activities and famliy data and we hope will serve to make school more meaningful and useful. Through the cooperation of the State Dental Division and the Federal Government, each child in Fitzwilliam will have an opportunity to have a complete florine treatment for his teeth, at no cost. The union has also purchased an audiometer for determining the hearing difficulties of our pupils. It is probable that we will also soon have the Massachusetts visual testing equipment so that an accurate eye-testing will be available to all.

SCHOOL PLANT

"A contradiction in a Land of Plenty"

The wealthiest nation in the history of the world; the highest standard of living ever known; a land rich enough to support half the world with its wealth; rich enough to spend 3 billion dollars a year on tobacco; eight billion on whiskey; ten billion on cosmetics and 16 billion on war equipment BUT a land whose children, the real 'America of tomorrow,' go to school in Civil War era buildings; because in the land of plenty we 'can't afford' modern school houses. The foundation of Democracy was, is today, and always will be, the American Public School System! That system was born in New England and we have set the pattern here for the nation. Today, many New England communities near-by are building new schoolhouses and this year Fitzwilliam will have the opportunity to decide if its children are to have all the advantages of a consolidated school.

There will be many arguments against a new school. I can only assure you; after many years as a teacher and eight years in teacher colleges, that a consolidated school will bring to your children many educational and cultural benefits which they do not now receive.

STATISTICS 1948-49

Different pupils registered in the district	137
Enrollment Sept. 1949	148
Number of days school was in session	181
Number of pupil-days lost by absence	1,709
Number of school years lost by absence	9½ yrs.
Percent of time lost due to absence	7.34%

These statistics show that Fitzwilliam has one of the lowest attendance records in Union No. 38. Over 7% of all school time, education, and money is lost due to absence from school. Pupils lost nearly ten years of classroom instruction time during 1948-49! The loss in money was equivalent to almost $2,300 dollars. Studies show that less than 2% of absences are for really justifiable cause. We do not want sick children in school and the community

cannot afford to have well children at home. We earnestly request that parents assist us in reducing absences from school to a minimum.

CONCLUSION

Cooperation and understanding are the necessary elements in any group endeavor. These elements have been present in my work with the teachers of Fitzwilliam,

the School Board and school patrons; and I appreciate this spirit of unity.

Sincerely,
CHARLES L. BOWLBY,
Superintendent.

Mr. Charles Bowlby,
Superintendent of Schools,
Marlboro, N. H.

I herein submit my report concerning the Elementary Music in the schools:

The ultimate aim in our Music program is to develop the kind of person who will want to carry over his musical skills and interests into his daily life, after his school experience, and, thus, contribute to the social and cultural life of his community.

Toward achieving this aim, in the Elementary grades, we are carrying on a program of singing, music reading, tonal perception, rhythmic, and listening activities.

School music's greatest value lies in the fact that it is a cooperative enterprise, wherein all students must work well together, to get good results.

Respectfully submitted,

FREDERICK P. PERKINS,
Elementary Music Supervisor.

REPORT OF THE SUB-COMMITTEE ON EDUCATION

During the past twevle months the Sub-Committee on Education, working under the Town Survey, has devoted considerable time and thought to the educational problems of Fitzwilliam.

Our first step was to meet with representatives of the State Department of Education, to ascertain from them the current trends of modern education. We discovered that in their opinion, the salvation of the rural school district is to merge with other communities, faced with the same problems, and form a cooperative or area school district.

We wish to say at the outset, that as a committee we are not yet in a position to make a recommendation as to whether or not it would be advantageous for Fitzwilliam to participate in such a venture. Considerably more time must be spent in investigation. We have, however, met informally with representatives of three towns recommended by the State Department as a possible cooperative district, namely, Troy, Jaffrey and Rindge. We can report at this time that considerable interest has been stimulated as a result of these meetings. The towns involved are definitely aware that an area school is a project worthy of investigation.

Because of the geographical position of Troy, Jaffrey, Rindge and Fitzwilliam, the State Department is of the opinion that it would be advisable for the elementary grades to be housed within the towns. These classes would still remain under the jurisdiction of the cooperative school board. This fact has a definite bearing on the pro-

posed building expansion program of the Fitzwilliam School Board. We have been privileged to be included in many of the meetings where this program has been discussed and analyzed. Our questions have been patiently answered and our suggestions received in the spirit in which they were offered.

We are completely satisfied that the addition of four rooms to the present Junior High School is the logical procedure with the future clearly in view. It will alleviate the present problems of inefficiency in operation; it will provide for a healthful physical plant; it will expand the possibilities of a broader educational program, and in the event a cooperative district is formed, it will provide an adequate elementary building to house the first six grades.

FOREST FIRES—OUR MOST SHAMEFUL WASTE

Everyone apparently fears fires but too many are careless with it. This is particularly true of fires in and near woodlands. Official figures show that more than 98 percent of all forest fires result from human carelessness and can be prevented. Consequently, we may say "Forest Fires are our most shameful waste".

Annual forest fire losses are tremendous and their effects far reaching. Such fires destroy the raw products of the forests, the protection forests provide for game and the supply of ground water. They upset local economies by drawing men from gainful employment and requiring the expenditure of public funds to extinguish them.

Our forest fire organization is doing a good job in keeping the size of fires small but the number of fires is increasing. In 1949 there were 100 more fires in New Hampshire than in 1948, but they burned 500 acres less. For the warden and his deputies to do the job they are capable of, they must have the cooperation of the public—YOU!

The primary objective of all fire fighters is PREVENTION—fire stoppage. This is the goal toward which your local forest fire warden and his deputies are constantly working. It can be achieved ONLY if YOU and YOU cooperate with them. It is worth YOUR effort and can be accomplished by:

(1) Being careful with fire in or near woodland, being particularly careful with matches and cigarettes.
(2) Securing the required written permit from the warden when the ground is not covered with snow.
(3) Insisting that others be careful and comply with burning requirements.
(4) Calling the warden promptly when fire is detected and aiding him to extinguish it.

Let's reduce the number of forest fires and eliminate our most shameful waste.

F. J. BAKER,
District Chief.
